Agency Information Collection Activities Under OMB Review

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: In compliance with the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*), this notice announces that the Information Collection Request (ICR) abstracted below has been forwarded to the Office of Management and Budget (OMB) for review and comment. The ICR describes the nature of the information collection and its expected cost and burden.

DATES: Comments must be submitted on or before June 14, 1995. For further information, or to obtain a copy of this ICR, contact: Sandy Farmer at EPA, (202) 260-2740.

SUPPLEMENTARY INFORMATION:

Office of Air and Radiation

Title: New Source Performance Standards (NSPS) for Asphalt Processing and Asphalt Roofing Manufacturers (Subpart UU)—Information Requirements (EPA ICR

#661.05; OMB# 2060-0002). This is a request for an extension of a currently approved collection without any change to the substance or the method of collection.

Abstract: Owners or operators of asphalt processing and asphalt roofing plants must record and notify EPA or the delegated State regulatory authority of construction, modification, anticipated startup date, actual startups, shutdowns, malfunctions, and the date and results of the initial performance test. Owners or operators of asphalt processing and asphalt roofing plants must install a continuous monitoring system (CMS) to monitor and record the temperature in specified pollution control devices, and must notify EPA of the delegated authority of the date of demonstration of the CMS. Records of temperature measurements must be kept, but no excess emissions reports are required. The notifications and reports enable EPA or the delegated authority to determine that best demonstrated technology is installed, properly operated and maintained, and to schedule inspections.

The standard currently applies to 43 sources, and is expected to apply to two new or modified sources per year over the next three years. Particulate matter is the pollutant regulated under these standards.

Burden Statement: The public reporting burden for this collection of information is estimated to average 66 hours for both reporting and recordkeeping, annually. This estimate includes the time needed to review instructions, search existing data sources, gather the data needed and review the collection of information.

Respondents: Owners or operators of asphalt processing and asphalt roofing plants which commenced construction or modification after November 18, 1980.

Estimated No. of Respondents: 46.

Estimated No. of Responses per Respondent: Variable.

Estimated Total Annual Burden on Respondents: 3,033 hours.

Frequency of Collection: Variable.

Send comments regarding the burden estimate, or any other aspect of the information collection, including suggestions for reducing the burden, to: Sandy Farmer, U.S. Environmental Protection Agency, Regulatory Information Division (2136), 401 M Street SW., Washington, D.C. 20460 and

Chris Wolz, Office of Management and Budget, Office of Information and

Comprehensive Environmental Response, Compensation and Liability Act (CERCLA) or Superfund, Section 104; Announcement of Public Dialogues on Urban Revitalization and Brownfields

AGENCY: Environmental Protection Agency.

ACTION: Notice of the Series of Public Dialogues on Urban Revitalization and Brownfields: Envisioning Healthy and Sustainable Communities.

The National Environmental Justice Advisory Council's (NEJAC) Waste and Facility Siting Subcommittee and the U.S. Environmental Protection Agency (EPA) will convene a series of public dialogues on environmental justice issues related to urban revitalization and Brownfields. The NEJAC is a body of non-federal experts established to advise EPA on environmental justice issues. The NEJAC recognizes the compelling need to address the environmental justice concerns that are pivotal to issues of urban revitalization and creating healthy and sustainable communities. The NEJAC has identified Brownfields clean-up and redevelopment as potentially contributing to the urban revitalization that is occurring within the environmental justice communities. These dialogues will provide an opportunity for grassroots environmental justice activists and residents of impacted communities to articulate their aspirations, concerns, and recommendations for developing healthy and sustainable urban communities—including Brownfields redevelopment. Upon completion of these dialogues, the NEJAC will give EPA its formal response to the Brownfields Initiative Action Agenda. EPA has committed that the dialogues will have a demonstrable role in shaping its Brownfields initiatives.

The public dialogues are titled, "Urban Revitalization and Brownfields: Envisioning Healthy and Sustainable Communities" and will take place during 1995 on (1) Monday, June 5 in Boston, MA, (2) Wednesday, June 7 in Philadelphia, PA, (3) Friday, June 9 in Detroit, MI, (4) Tuesday, July 18 in San
